

**Town of Maynard  
COMMUNITY PRESERVATION COMMITTEE  
MEETING  
Wednesday, January 28, 2009 - Room 101, Town Hall**

Chair Doug Moore called the meeting to order at 7:30 pm.

Members present: Peg Brown, Mike Chambers, Rick Lefferts, Doug Moore

MINUTES from 01/14/09 were approved with one correction.

**NEW PROPOSALS**

Peg Brown reported that the Community Preservation Coalition has advised that proposals for historic preservation must be for existing structures or artifacts. Therefore, the 'historic' mural, 'historic' walk, and 'historic' lighting proposals are ineligible. History can not be created using CPA funds.

Doug Moore reported that the Fowler Irrigation proposal has found John Curran to be the Town sponsor for that proposal.

The Committee voted that the following proposals would be included in the Town Warrant article submitted by the Committee for the May 2009 Town Meeting:

OS 003-09 Open Space Plan Production

OS 005-09 Conservation Fund Support

HR 005-09 Rock Wall Repair

HR 006-09 Glenwood Cemetery GPR Reconnaissance Survey

HR 010-09 Historic Artifact Cataloging

The Committee felt that the uncertainty of the Fowler School playing field status was too great to proceed with the Fowler School Irrigation proposal (REC 009-09). The Committee felt that it was inappropriate to earmark money for a project that might not be started for 2 or more years.

Peg Brown has received comments on the CPC Plan and will print the Plan 'later.'

Meeting adjourned at 7:55.
