Re: Erosion Control Inspectional Report (Weeks 55-63)  
129 Parker Street, Maynard, MA

Dear Maynard Conservation Commission:

Goddard Consulting, LLC is pleased to submit this site inspection and erosion control report on behalf of Capital Group Properties in accordance with the approved SWPPP (EPA Tracking MAR12AI87) and the Maynard Stormwater Bylaw Permit.

**SITE VISITS:** Goddard inspected the site bi-weekly (every other week) over the past several weeks in the course of routine site inspections and/or after measurable storm events. At no time during any rain event did erosion occur in the downgradient, receiving stream. The site is fully thawed, and is quite stable. The measures outlined in the SWPPP have been implemented. Goddard believes the site is in full compliance with the SWPPP.

The site is largely inactive and stable.

**EROSION SPECIFIC ACTIVITIES:** The following activities were performed:

- Spraying of stockpile with tackifier.

**IMMEDIATE ACTION ITEMS NEEDED:**

- None

**LONG-TERM ACTION ITEMS NEEDED:**

- Parking lot shall be swept as needed.

If there are any questions concerning this submission, please do not hesitate to contact us.

Sincerely,  
Goddard Consulting, LLC

by

Scott G Goddard, PWS
