COA Director's Report:

- All COA services are being successful provided remotely. Current programs include:
  - Chair Yoga and Zumba Gold fitness classes.
  - Presentations have been scheduled prior, but no one signed up.
  - Resources for a wide array of programs and activities have been offered in the newsletter, both for those with internet services and telephonically.
  -
- Any type of "re-opening" would mostly occur as outdoor activity in spring and summer
- Preliminary senior center space needs were explored including 141 Parker Street and Mill + Main. Tentative option at Mill + Main is available.
  - Board felt priorities should be accessibility, parking, adequate space for current programs and ability to meet the programmatic needs of a growing over 60 population and proximity to the downtown area.
  - COA Director, at Board's request, will arrange for the Board to visit the space at Mill + Main.

- COA Director noted that at this time further review of potential space options, including the Mill + Main space, would include input from a soon to be established Master Plan Implementation group.

Meeting adjourned at 7:00 p.m.
