Re: Recommendation for outdoor Mountain Bike Path

Date: 3/22/2022

Hi Justin-

This letter serves as recommendation from the Recreation Commission for Liam Llewellyn and his group in his effort to build a mountain bike path in an acceptable location for everyone involved. Liam has visited with the Rec commission and presented his plans. We want to do everything in our power to make this dream of Liam and his friends a reality.

While this is not mainstream recreation like a basketball court or ball field, it is in the same spirit with which we want to support Liam. He and his friends want a safe space for them to participate in their hobby, which promotes our youth being outside and performing active recreation, which we should be championing. Liam and his group are not asking for any funds (although Recreation may help them with that) or help with construction. They merely need permission and guidance with where and how they can make this happen, and assurance that they will not be asked to take it down once it is constructed.

I understand that Liam will need guidance from various town boards, and appreciate your assistance in this process. If you need anything else from me/

---

us, including participation in any meetings where Liam needs support, please let me know.

Thank you very much!

Jim Hines

Chairman

Recreation Commission
